JCS Home & Community Support (JCS) is a not-for-profit community organisation based in Joslin, South Australia and servicing the Adelaide metropolitan area.

What is a Home Care Package?

A Home Care Package is a coordinated package of care and services for elderly individuals over the age of 65. These packages are designed to help you live independently in your own home for as long as you can.

At JCS, our highly trained and caring staff will work with you to design a care plan to meet your needs and to help you achieve your lifestyle goals at home.

Home Care Packages are subsidised by the Commonwealth Government. At JCS we also offer individual home care services privately upon request.

There are four levels of Home Care Packages to help meet the different levels of care needs.

To determine which package best suits your lifestyle needs, your Aged Care Assessment Team (ACAT) assessor will conduct a home assessment and will work with you to determine which level of care is required.

LEVEL 1
Supports people with basic care needs.

LEVEL 2
Supports people with low level care needs.

LEVEL 3
Supports people with intermediate care needs.

LEVEL 4
Supports people with high level care needs.

The Australian Government pays a different subsidy amount for each level of Home Care Package. This amount is paid to the home care provider you choose. There is also extra funding available from the government for people living with dementia. We can help guide you on whether you are eligible for this.

Waiting Periods

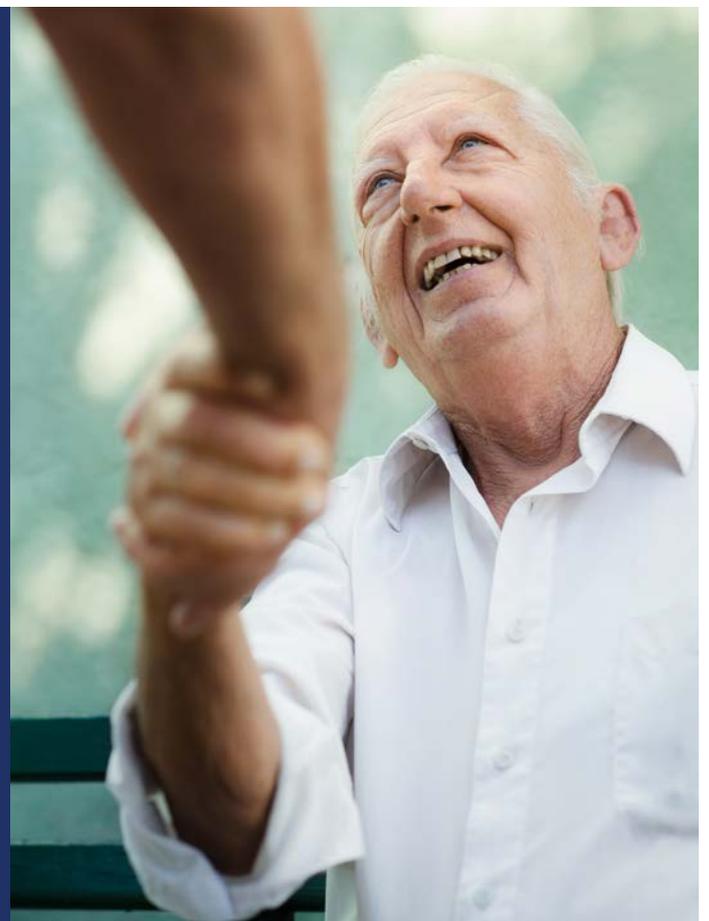

After you have received your eligibility approval, how long it takes to get a Home Care Package is dependent on a variety of factors, including what level of package you are eligible for.

Each person's waiting time is different and is dependent on your priority and other personal circumstances.

Are you on a waiting list?

We understand that at times, some families may require assistance immediately. We offer private Home Care services to ensure that you can receive the support you require at the time you need. All of our services are offered privately.

Through our private services, you do not need an ACAT assessment. We can work with you to arrange the services you need immediately.

You may be required to pay a basic daily fee based on your Home Care Package level.

Income-tested care fee (up to \$30.49 per day from 20 September 2019)

Some people may also have to pay an income-tested care fee. Whether you pay it, and how much of it you pay, is determined through a formal income assessment from the Department of Human Services. If you have to pay this fee, there are annual and lifetime limits on how much you can be asked to pay.
